Database SQL
Framework PHP

Languages Python, C

Projects

Doctor's Appointment Management System

- Developed a user-centric web application to streamline the process of booking and managing doctor appointments.
- Patients can view detailed doctor profiles, check available time slots, and book appointments seamlessly.
- Utilized PHP for backend development, MySQL for secure data storage, and HTML, CSS, and JavaScript for the interface.

Research Centre Management System

- Developed a web-based application to streamline research center operations, focusing on managing research activities, grants, publications, and advisory committees.
- Simplifies doctorate management by enabling registration and supervision of doctoral candidates.
- Utilized **PHP** for backend logic, **HTML**, **CSS**, and **JavaScript** for the frontend interface, and **MySQL** for structured data management.
